presents

# "VOICECRAFT"

for the

## GENERALIST SPEECH PATHOLOGIST

with

**Alison Bagnall, PhD**

**OCTOBER 6th - 8th 2010**

**9.00 a.m. TO 5.00 p.m. DAILY**

**ROCKHAMPTON, QLD**

### IF YOU WOULD LIKE:

- skilful control of your own vocal mechanism for different acoustic effects
- practical devices for treatment of dysarthria, dysfluency & oromotor disorders
- techniques for restoring a voice in difficulty
- reliable manoeuvres for altering the acoustic parameters of a voice
- the means to develop vocal projection and stamina
- vocal re-organisation techniques for resolution of nodules, contact ulcers, oedema etc. and much more

"Voicecraft®" for the Generalist Speech Pathologist introduces the concept of differentiated control of various parameters of the larynx and vocal tract permitting mastery of the voice for the treatment of functional voice disorders eg. hoarseness, vocal fatigue or weakness of the voice associated with vocal nodules, bowed vocal folds or asymmetry of vocal fold apposition. The techniques can also be applied to those with voice difficulty of a neurological origin eg. Parkinsonism, after MVA, CVA and MS.

**Experientially based**, the workshop material is fully documented in a comprehensive manual and has its origin in seven years of physiologic/acoustic research. The participants learn how to produce different vocal effects which assist those with motor speech disorders, stammering or with accent modification. Improving the strength of the voice, assisting the professional voice-user and applications to children and adults are all included.

This workshop will extend your skills and confidence as an effective speech pathologist

#### BRISBANE, 2008

*"Very easy to understand. Wonderfully interactive (even for those of us made extremely nervous by public attention). Overall a very inspiring experience that is priceless."*

D.E. Speech Pathologist

#### ROTORUA, 2007

*"The presentation was an excellent balance between talk and do, we could never have learnt so much without the do. It challenges so much we have been taught and teaches so simply, stunning alternatives."*

CM. Speech/Language Therapist

### BOOK EARLY TO AVOID DISAPPOINTMENT AS NUMBERS ARE LIMITED

NB: This Workshop extends over three full days. The group dynamics are disadvantaged if people leave early. It would be appreciated if people registering would commit themselves to the full three days. No previous singing experience required.

### FEES

Full Fee	\$750.00
On or before 25/08/10 (Early Bird)	\$650.00
Full time student/pensioner	\$455.00
Focus Member (20% off Early bird)*	\$520.00

\*For registrations received on or before 25/08/10

*(Cancellations: any cancellations on or before 08/09/10 will be subject to a 50% cancellation fee. After 08/09/10 no refunds will be given.)*
